Are you ready for trigo?

Ingeniously simple, mobile and high-quality

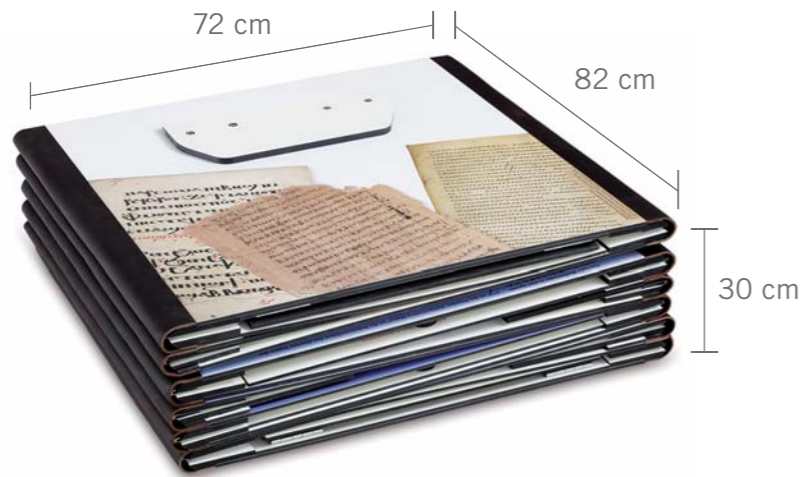

trigo is an innovative folding wall system. The individual parts can be assembled without any tools thanks to the strong neodymium magnets.

The triangular design combines a high level of stability with maximum exhibition space and minimum transport volume. One pillar with a table module fits into the boot of a car.

trigo creates a small stand-alone exhibition stand or a complete exhibition in no time at all.

trigo is supplied as standard in white with robust, dark brown buffalo leather edges. Individual designs are also possible.

trigo is extremely compact when folded thanks to its innovative leporello technology.

Pillar (H x W)	216 x 82 cm
Table (H x W x D)	72 x 72 x 82 cm
Weight	106 kg
Material	HPL 6 mm
Multimedia equipment	optional

Exhibition in NRW state parliament

Research – on tour

North Rhine-Westphalian Academy of Sciences and Arts is presenting its research projects during a touring exhibition with the aim of introducing its services to a wide general audience.

The exhibition can be assembled and disassembled quickly and easily through the use of the folding wall system.

Atelier für Mediengestaltung conceived and designed the exhibition.

trigo in the foyer of the state parliament in Düsseldorf

Photos from the exhibition, a time-lapse film on how to assemble the system and further information are available at: www.afm-koeln.de/trigo
